QUILT SHOP

June 5, 2015

Weather is a favorite topic of mine-or rather weather forecasting. I'm always a fan of actually looking out the window to see what's going on. Not all weathercasters seem to do that. I remember one memorable rainy day when the radio report said it was partly sunny-and kept with that story for several hours of rain.

A couple of nights ago we had several storms blow through, part of the system that took out Lusk and all roads leading in & out of Lusk. A friend of mine sent me a text about 8:45 pm asking me what the sky looked like out my way. My first thought was the George Carlin, Hippy Dippy Weatherman routine: "Tonight's forecast: Dark. Continued mostly dark tonight, changing to widely scattered light towards morning." But I couldn't remember the entire line, so I just said it was black, expected to get lighter by morning. It was sunset time, after all, and cloudy.

But that led to a longer exchange of weather news, from rain to hail to lightning and which direction things were moving. So then I looked on the Accuweather site & discovered that the storm would last another 101 minutes. So I texted hat back, but said it might be only 100 minutes, given the time it took me to write the text.

A couple of minutes later, I wrote back & said, "But we'll have a break in the rain in 3 minutes." Then a minute later I sent, "1 minute." Then 2 minutes later, I wrote, "Rain starts in 65 minutes." And then 3 minutes later I wrote, "It's been less than 65 minutes & now the report says heavy rain will end in 5 minutes." It was like an ADHD weather report: "They says it's going to rain in 65 minutes or stop raining in 5 minutes. Oh look, a chicken!"

I don't know when the minute by minute rain report came into fashion. Most of the time the weather forecasts miss by miles. If they can't figure out exactly where a storm is going how can they predict within minutes if it's going to rain? And I get that weather is hard to predict. We just don't have that kind of control over the elements. But minute by minute rain reports? It's just asking for trouble and sarcasm.

And just so you know, I've been looking out the window all morning and it is getting darker & darker, a sure sign of rain. I've even heard thunder. So I will predict that it will rain sometime today. And I think I have a 50/50 chance of being correct. Accuweather says rain & a strong thunderstorm will start in 4 minutes (it's 11:25). It also says, "Thunderstorms, some severe, this morning through this evening; storms can bring downpours, large hail, damaging winds and a tornado." Note that it is only 1 ("a") tornado. Three minutes. One minute.....And holding. No rain yet.

But it could get a lot worse. So please pay attention to all of those minute by minute reports just in case. And take cover when necessary.

And be careful on Sunday. There is a chance for a stray thunderstorm. Straying from where, I have no idea.

Our row! See the water? (Snow capped mountains)

Visit any participating quilt shop during the summer and ask for their free row by row pattern. More than 2500 shops across the country are participating. The 2015 theme is Row by Row H₂O, and each shop will have a row with the water theme. The patterns are free, limit 1 to a customer. Patterns are not available online or by mail. Shops may also have their row kitted for your convenience. The Row By Row runs from June 21 through September 8, then the "hibernation/sewing" period begins. To be eligible for a prize, you must complete your quilt using a minimum of 8 different row patterns (or 8 row patterns, arranged anyway you like, quilted & bound) and return it to a participating shop by no later than October 31. The first person to bring in her finished quilt gets 25 fat quarters. If you bring your quilt to a shop whose row is in your quilt, you will get a bonus prize.

At the participating shops, you may also find specialty fabric produced especially for the water themed rows, license plates and pins. More information can be found at the Row By Row Experience website and on Wyoming's Facebook site. (just google search the terms)

QUILT CHALLENGE!

The Buckeye Community Club is hosting a 6th annual quilt and fabric arts show September 19 & 20. The show is celebrating the 90th anniversary of the Buckeye School, which now serves as a community center.

The show will have 30 contemporary quilts and fabric arts pieces, each displayed with an antique or traditional quilt, matched for color, fabric, technique or other connection.

The theme for this year's show is Happy Birthday! and the Buckeye Community Club is looking for quilters and artists to make a small quilt (about 48" X 48", doesn't have to be square) to donate to the show. The show will sell the pieces as unique birthday cards or presents -- so use your imagination in creating your quilt. Proceeds from the sale will help to preserve and improve the historic Buckeye School and rural community.

As an incentive, monetary prizes will be awarded for the Grand Champion (\$100?) and People's Choice, Best Technique, Artistic Merit and Innovation (\$50? each). (Monetary amounts still being decided.)

Quilts do not need to be finished before September, but the Club needs your commitment. You can contact Ed Harris at 970-568-3401 or at eharris@frii.com to let him know that you plan to participate.

HAND APPLIQUE CLUB

This is a get-together & stitch class. Many of us are trying hand applique these days-- patterns are calling for a lot more applique. The club is designed for quilters who already do some hand applique, but beginners are welcome as well. We will share techniques, suggest patterns, talk about threads and, in general, just stitch. A little quiet time away from the distractions of home is what we need to get our projects done.

HAND EMBROIDERY CLUB

If you want to learn to hand embroider or just brush up your technique, join us on the second Saturday of the month from 10 to noon. We provide free vintage patterns, and this year we will have free patterns of girls with hats, that you can embroider, embellish and color. Each month Kathy Sconce shows us a new stitch to try, plus, she guides us through thread choices, how to knot, fabrics to use, and tracing techniques.

Knit Pickin' Club

This is another get-together class to sit & knit, work on our projects, share information and get some help. We will share techniques, suggest patterns, but mainly we'll sit & knit (or pick).

Toad Toters

On full moon days (as noted in the calendar) you will get 20% off all purchases (not otherwise discounted) that you can fit in your bag. You must bring your bag to participate.

Full Moon Days: May 4 (observed), June 1, July 1, August 29.

Discount Policy

We will honor only one discount -- whichever is largest. You can't combine a 10% with a 25% discount to get a 35% discount. On this we can't be bribed.

Color of the Month

May flowers/floral, June baby novelties, July blue, August black & gray

Join the fun and come feel the difference of quality fabrics.

Happy quilting!

Sincerely,

Barbara Boyer
