November 16, 2018

Tips for Turkey:

1. Don't thaw the bird the night before. A 15 pound bird may take 4 days to thaw. If you want to eat hot turkey on Thanksgiving, start

thawing Sunday, or so. Also, thaw in the fridge. Apparently some folks do it in bathtub, Jacuzzi, and the toilet. Don't quote me on that. That fact comes from Butterball. If you do it in the sink with cold water, it's about 30 minutes per pound and you better be changing out the water regularly.

2. Marinate the bird in coke and bourbon. Not that kind of coke, now. The kind with fizz. I do a fried coke chicken sometimes: pour soda (any flavor works) into the frying pan and add chicken. The soda keeps the chicken moist and the bubbles keep it happy. You can also soak the bird in a brine solution. And I know there are even fancier ways to dress up a turkey.
3. Don't baste. A Butterball expert says basting is like "pouring water over a rain coat." Cover the bird in vegetable oil instead and just let it cook.
4. Use a shallow pan for roasting, one with 2 inch sides. Better heat distribution.
5. Put a layer of carrots on the bottom of the pan, instead of using a rack for the bird. While the bird cooks, its juices drip over the carrots, which then adds more flavor to the gravy. Because you can't have turkey without gravy. I can do turkey without stuffing, but not without gravy.
6. For something exciting, coat the bird with edible glitter. I'm not saying this is a good idea, but it's something different.
7. After cooking for 2/3 of the time, cover the breasts with tinfoil so they don't overcook.
8. Cook the bird at one temp for the whole time.
9. If you forget to take the bag of giblets out of the bird, don't worry. You can still eat the bird but throw out the bag of innards.
10. Cook the bird 13 minutes per pound, at 350°F or until it reaches 165 degrees. Let it rest for 20 minutes before carving. Keep the critters away because you don't want the dogs diving into the bird before you do. Otherwise you're eating take out. See: Christmas Story.

If all else fails, call Butterball. The Turkey Talk-Line hours are Nov 17-18, 7 a.m.-5 p.m. Nov. 19-20, 6 a.m.-8 p.m.; Nov. 21, 6 a.m.-9 p.m.; and Nov. 22, 5 1.m.-5 p.m. These are dedicated people who are willing to give up their Thanksgiving day to help you.

My tip? Stick the bird into a Brown n' Bag for the required time. Easy. But don't call me for help. I'll probably be snoozing while the bird

cooks.

And above all, save some drippings for your own Beccas and Cassidys.

Happy Thanksgiving!

**Hand Applique/Back Basting TBA Sandra Freeburg, 10-noon \$25  
or call for dates**

Back basting is a template free method of needle turn applique. No slippery freezer paper or chalked lines on top that never seem to get turned under quite right. This method is especially great for traveling, because your pieces will be basted onto your background -- no need for pins to get in the way. This class is great for beginners and all levels of appliquers. Don't let hand applique frustrate you. It's really easy and relaxing!

**Hand Embroidery Club 2nd Sat. of the month, 10-noon FREE  
Kathy Sconce**

If you want to learn to hand embroider or just brush up your technique, join us on the second Saturday of the month from 10 to noon. You can work on your own projects or you can join the project we are doing. This year we are following a purchased pattern called My Crazy Life. It is wool appliques on flannel backgrounds. Then we will explore a variety of embroidery stitches to embellish each block-4 six inch blocks per month (or whatever you choose to do), for a total of 48 blocks. Each month Kathy Sconce shows us a new stitch to try, plus, she guides us through thread choices, how to knot, fabrics to use, and tracing techniques. We will also discuss wool, felted wool, wool felt, various threads for embroidery, various techniques for the wool applique and setting options for the quilt.

**Hand Quilting Oct. 17, 10-noon Sandra Freeburg \$25 Watch the  
calendar or call for other dates**

Hand quilting is an art that should not be lost. By the end of Sandra's class you will be hand quilting with confidence. Everyone has at least one special quilt that calls out for hand quilting. And there is nothing better than the feel of a hand quilted quilt. Do yourself a favor and learn this art that connects us to our past -- our mothers, grandmothers and great grandmothers.

**Hello Pouches Mon Dec 10 10:30-3 OR Sat Dec 15 1-5 Sue Frerich \$20**

Bags and bags and bags. This little zippered pouch has clear vinyl on the top for a see-through look and a quilted base for stability. With the see-through vinyl top you can say "hello" to all your treasured trinkets. Pattern includes instructions to make all four sizes.

**Knit Pickers' Club 2nd Wed of each month, 6-8:30 Carol Moler**

Every second Thursday, we're getting together to practice our knitting. The Club is open to all skill levels. We want to share what we've learned, find new patterns, and simply just sit and knit. We're currently working on some felting projects, but we're planning on heading into fingerless mittens, mittens, and socks. We are discussing trying to do a group project-meaning everyone does the same pattern. Each month we will learn a different pattern, make it into a square and eventually put all the squares into one project-afghan, scarf, bag, etc.

**Long Arm Quilting Classes Wednesdays from 10:30-1:30, 2:30-5:30 or 6-8:30 Barb Boyer \$30 (check calendar for specific times & dates)**

In this class you will learn all about the Nolting long arm quilting machines: loading, threading, quilting. I'll demonstrate how to load and thread, set stitch length, change tension, wind and load bobbins. Then I will load a practice quilt onto the machine and show how to do hand guided quilting. Each student will be given at least 15-20 minutes of practice time. (Each class is limited to 4 students). You will be able to do free hand quilting plus you can practice following a pantograph. Any quilter who wants to rent to machines must take this class first, regardless of whether you have experience on a long arm machine. This class is not designed to teach you everything there is to know about long arm quilting-it's just a start.

**Market Tote Bag Dec 3 1-4 Barb Boyer \$20**

Bags and bags and bags. This bag is layered, made from fat quarters. It's simple (if I'm teaching a bag, it's gotta be simple), strong, and you'll want to make several so you can take them the grocery store. I need to be more eco conscious and I plan to make several to keep in my car so that I have no excuses.

**Monthly Minis First Saturday of the Month, 4-6**

This year we are going to do the Great Pumpkin Quilt, a purchased pattern. It will start in February because we are still finishing last year's Holiday Houses in January. Starting in February we will work on the Great Pumpkin quilt. We will plan to do 2 blocks a month, and do the top banner section over two months. In class we will discuss use of color in the backgrounds and pumpkins.

We will also discuss and learn various machine applique techniques to use on the blocks.

**One Block Wonder Panel Quilt**  
**Start preparing now! Sue Frerich**

For all of you who missed the class before, you don't want to miss this class-we will

run for everyone who has taken the class. So, get your quilts done so we can display them at the store, schedule in January for the next class and we will schedule a reunion and start choosing your One Block Wonder Panel Quilt.

## Nolting Longarm Machines

Nolting has 5 main machines, each with different reaches: from 17" to 30" depending on the machine. They are sold with or without a frame, but after I saw & helped set up one of the steel frames this week, I recommend buying the frame. All machines, except for the Standard-- the most economical machine-- have a stitch regulator. I recommend a stitch regulator. All machines can be equipped with a computer and there are a couple of different ones to choose from. In addition, you can get an extended table base so that you can use rulers, you can get

larger bobbins on some of the models and on the frames you can get hydraulic lifts to raise and lower the tables. In the coming weeks, I will print out more information on each model.

The best entry level machine is the Fun Quilter. It comes in 17", 20" & 23" reach. It comes with the Intellistitch Equalizer stitch regulator, standard speed control, needle up/down, and fixed handles in the front & rear. This machine can also be equipped with a computer.

The Pro Machine has the Intellistitch Turbo stitch regulator, single stitch option, standard speed control, needle up/down and customizable handles in the front & rear. The Pro Machine comes in 20", 24" and 30" reach with 10-12" of inside height. There are easy dials on the front to set stitch length and other options. This machine can also be equipped with a computer.

The NV Machine is the newest in the fleet of Nolting machines. This machine has a touch screen with programmable stitch regulation. You can stitch in 4 different stitch modes plus single stitch and needle up/down. It also has an adjustable brightness LED work light. This machine can also be equipped with a computer.

Nolting also has a commercial machine with the Intellistitch Equalizer stitch regulator, standard speed control, needle up/down, and fixed handles in the front & rear. This machine can also be equipped with a

computer.
